1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 5-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Yamada et al. Yamada et al disclose a personal watercraft 10 with an access port structure for a personal watercraft with at least one opening 166 formed in side wall and being aligned with a steering shaft (note Figures 1 and 2).

3. Claims 1-3, 9-11, 13, 14, and 16-19 are allowed.

4. Applicant's arguments filed October 7, 2004 have been fully considered but they are not persuasive. Applicant alleges that Yamada et al do not disclose the opening being aligned with a steering shaft. However, Figures 1 and 2 of Yamada et al clearly show an opening (at 166) being aligned with a steering shaft.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
